DATE, TIME AND PLACE OF MEETING

This proxy statement is furnished in connection with the solicitation by the Board of Directors of the Corporation of proxies for use at the Annual Meeting of Shareholders to be held at 2 P.M. (Central Daylight Time), at the Corporate Offices, 1328 Racine Street, Racine, Wisconsin on Friday, October 20, 2000, or any adjournment thereof. Holders of common stock of record at the close of business on the 1st day of September 2000, are entitled to vote at the meeting and each shareholder shall have one vote for each share of common stock registered in the shareholder's name. Shares represented by a signed proxy appointment will be voted in the manner specified in the form of proxy or, if no specification is made, in favor of each of the propositions mentioned therein. The presence of a majority of the outstanding shares of common stock of the Corporation, either in person or represented by a signed proxy appointment, will constitute a quorum at the meeting. The Corporation intends to mail this statement to shareholders on or before September 15, 2000.

The enclosed proxy appointment form must be signed and delivered to the Secretary either in person, by mail, or by messenger. Appointment forms transmitted by facsimile, telex, telegram, or electronic means will not be accepted. Furthermore, appointment forms must be received by the Secretary not less than 48 hours prior to the date of the meeting. PROXY APPOINTMENT FORMS NOT MEETING THE ABOVE REQUIREMENTS WILL BE RULED INVALID.

The proxy appointment form must be signed in handwriting. The signature must be sufficiently legible to allow the inspector to distinguish it as representing the name of the registered shareholder, or must be accompanied by a rubber stamp facsimile or hand-printed name, including the shareholders surname and either the shareholders first or middle name as represented on the corporate records, and any titles, offices or words indicating agency which appear in the Corporate records.

If a shareholder wishes to present a proposal for consideration for inclusion in the Notice of the Meeting and Proxy Statement for the 2001 Annual Meeting, the proposal must be received at the Corporation's principal executive offices no later than May 23, 2001. Shareholder proposals received later than August 1, 2001 will be considered untimely, and will not be considered at the Corporation's 2001 Annual Meeting.

PERSONS MAKING THE SOLICITATION

The proxy solicited hereunder by the Corporation will be voted in favor of the Directors' recommendations on each and all matters properly brought before the meeting, unless the undersigned shareholder specifically instructs the holder or holders of the proxy to the contrary. With regard to the election of directors, votes may be cast in favor or withheld; votes that are withheld will be excluded entirely from the vote and will have no effect. Abstentions may be specified on all proposals submitted to shareholders (other than the election of directors). Abstentions and "broker non-votes" are counted for purposes of determining the presence or absence of a quorum for the transaction of business. Under the rules of the New York Stock Exchange, Inc., brokers who hold shares in street name for customers may have authority to vote on certain items when they have not received instructions from beneficial owners. A "broker non-vote" occurs on an item submitted for shareholder approval when the broker does not have authority to vote on the item in the absence of instructions from the beneficial owner. Retirement Income Plan

The Twin Disc, Inc., Retirement Plan for Salaried Employees provides non-contributory benefits based upon both years of service and the employees' highest consecutive 5-year average annual compensation during the last 10 calendar years of service. The non-contributory benefits were frozen as of December 31, 1996. The Plan is integrated with Social Security. The following table presents the non-contributory benefits payable for life under the Plan to employees assuming normal retirement in the current year.

AVERAGE HIGH 5-YEAR ANNUAL COMPENSATION	NON-CONTRIBUTORY PENSION BASED ON YEARS OF CREDIT SERVICE				
	10 YEARS	20 YEARS	25 YEARS	30 YEARS	40 YEARS
\$ 50,000	\$ 9,511	\$19,022	\$21,088	\$22,357	\$25,299
75,000	14,711	29,422	32,743	34,842	39,363
100,000	20,083	39,822	44,399	47,345	53,426
150,000	30,483	60,622	67,709	72,351	81,553

The values reflected in the table represent the application of the Plan formula to the appropriate amounts of compensation and years of service. Benefits payable under the Plan, however, must be in compliance with the applicable guidelines or maximum prescribed in the Employees Retirement Income Security Act of 1974 (ERISA), as currently stated or as adjusted from time to time. As of December 31, 1996, the credited years of service for each of the Corporation's executive officers named in the Summary Compensation Table is as follows: Mr. Batten 27 years; Mr. Joyce 6 years; Mr. Parrish 23 years; Mr. Pelligrino 30 years; and Mr. Melik 29 years.

For years of service subsequent to December 31, 1996, the Company provides non-contributory benefits based on a percentage of compensation, from 4.5% to 6.5% based on years of service, with interest at the thirty year U.S. Treasury Bond rate with a minimum guarantee of 3%. This benefit is payable as a lump sum or annuity.

Supplemental Retirement Benefit Plan

A supplemental retirement benefit is extended to qualified management. The supplemental retirement benefit is calculated as a single life annuity at an amount approximating 60% of the highest rate of pay attained during a specified period. The benefit is payable in the form of a single life annuity, contingent annuity, 10-year temporary annuity or a lump sum payment. The contingent annuity provides for payments to continue to the surviving spouse at a rate equal to 50% of the rate previously paid to the participant. In the event of death of a plan member after attaining a retirement age but prior to retirement, the surviving spouse will receive a lump sum benefit.

Compensation of Directors

Directors of the Corporation were paid a retainer fee of \$9,000 for the year. In addition, Directors received a \$1,300 fee for each board meeting attended and \$1,100 for each committee meeting attended. Directors who are officers do not receive any fees in addition to their remuneration as officers.

Outside Directors (non-Corporation employees) are eligible to participate in the 1988 Non-Qualified Stock Option Plan for Officers, Key Employees and Directors and the 1998 Stock Option Plan for Non-Employee Directors.

Outside Directors (non-Corporation employees) who reach the age of 68 or who retire from full-time employment are required to retire from the Board of Directors effective as of the completion of their current term. Retired outside directors are entitled to a retirement benefit for a limited period equal to the sum of:

- a) The annual retainer at the time of retirement.
- b) 6 monthly fees for Director Meetings at the rate prevailing at the time of retirement.

Employment Contracts

The Corporation has entered into agreements with certain of its key executives, including Messrs. Batten, Joyce, Parrish, Pelligrino and Melik. The agreements provide for severance benefits to be paid to the executive following a change in control of the Corporation (as defined in those agreements) and a termination (as defined in those agreements) of the employment of the executive. Upon the occurrence of the events, as specified in the agreements, which would entitle the executive to the payment of severance benefits, the maximum contingent liability of the Corporation for the payment of such severance benefits would be approximately \$2,913,000. Severance benefits for an executive officer would generally consist of the sum of the executive's highest annual base salary between the change in control and the date of termination plus the executive's most recent annual bonus times the lesser of 1.50 (2.75 for Messrs. Batten, Joyce and Parrish) or the number of whole and fractional years between the termination date and his normal retirement date. In addition, the executive would be entitled to the cash value of any shares of common stock subject to unexercised stock options held by the executive and a continuance of fringe benefits for 24 months following termination. The agreements are specifically designed to assure that benefits will not exceed the limitations and provisions of Sec. 280(g), of the Internal Revenue Code.

Board Executive Selection and Salary Committee Report
on Executive Compensation

Compensation Philosophy

The Corporation's primary business objective is to maximize shareholder value over the long term. To accomplish this objective, the Corporation has developed a comprehensive business strategy that emphasizes maximizing long-term cash flow and earnings, maintaining leadership or becoming the leader in its markets, and providing products of the highest quality.

The Executive Selection and Salary Committee of the Board of Directors (the "Committee") is comprised of 3 independent directors, none of whom has interlocking or other relationships which might be considered conflicts of interest. The Committee establishes compensation programs which are designed to foster the Corporation's business objectives. The Committee approves the design of, assesses the effectiveness of, and administers executive compensation programs in support of compensation policies.

Committee members believe that the compensation program should target compensation levels at rates that are reflective of current market practices. Offering market-comparable pay opportunities allows the Corporation to maintain a stable, successful management team.

Competitive market data is provided by an independent compensation consultant. The data provided compares the Corporation's compensation practices to a group of comparative companies. The Corporation's market for compensation comparison purposes is comprised of a group of companies that have national and international business operations and similar sales volumes, market capitalizations, employment levels, and lines of business. In establishing a comparative group for compensation purposes, the Committee exercises its judgment and makes its decision after considering the factors it deems relevant.

The companies chosen for the comparative group used for compensation purposes are not necessarily the same companies which comprise the peer group index in the Performance Graph included in this proxy statement. The Committee believes that the Corporation's most direct competitors for executive talent include many companies in geographical areas in which the Corporation operates as well as many of the companies that are included in the peer group established for comparing shareholders returns.

The key elements of the Corporation's executive compensation are base salary, annual incentives, long-term compensation, and benefits. These key elements are addressed separately below. In determining compensation, the Committee considers all elements of an executive's total compensation package, including severance plans, insurance, and other benefits, with the objective of being competitive but not trend setting.

Base Salaries

The Committee regularly reviews each executive's base salary. Base salaries are targeted at market levels, based upon the Committee's analysis of marketplace practices. Base salaries for executives are initially determined by evaluating executives' levels of responsibility, prior experience, breadth of knowledge, internal equity issues, and external pay practices.

Base salaries offer stability to executives and allow the Corporation to attract competent executive talent and maintain an effective management team. They also allow executives to be rewarded for individual performance based on the Corporation's evaluation process which encourages the development of executives. Pay for individual performance rewards executives for achieving goals which may not be immediately evident in common financial measurement.

Increases to base salaries are driven primarily by individual performance. Individual performance is evaluated based on sustained levels of individual contribution to the Corporation. When evaluating individual performance, the Committee considers the executive's effort in promoting Corporate values; improving product quality; developing relationships with customers, suppliers, and employees; demonstrating leadership abilities among coworkers; and other goals. Overall, executive salaries were increased at rates comparable to the increases provided at other companies and are near market levels.

As reflected in the Summary Compensation Table on page 8, at his request, Mr. Batten's base salary was not increased in fiscal year 2000.

Annual Incentives

The Twin Disc Incentive Bonus Program (the "Annual Plan") promotes the Corporation's pay-for-performance philosophy by providing executives with direct financial incentives in the form of annual cash bonuses to achieve corporate, business unit, and individual performance goals. Annual bonus opportunities allow the Corporation to communicate specific goals that are of primary importance during the coming year and motivate executives to achieve these goals.

Eligibility to participate in the Annual Plan, as well as the individual payout percentages assigned to each eligible executive's position, are determined annually by Mr. Batten, as chief executive officer, subject to the approval of the Committee.

Each year, the Committee approves specific goals relating to each executive's bonus opportunity. Eligible executives are assigned threshold and target bonus levels based on a percentage of base salary. Executives earn bonuses to the extent to which preestablished goals are achieved.

In fiscal year 2000 bonus awards were granted as earnings targets were attained indicating prior long-term decisions are providing favorable results. Corporate goals in 2000 were based on target earnings and return on net assets employed.

Target bonus awards are established at levels approximating marketplace practices for each executive. Targets are considered by the Committee to be achievable, but to require above average performance from each of the executives.

In fiscal year 2000, Mr. Batten received a bonus under the Annual Plan of \$119,800. This reflects achievements towards the Corporation's goals relating to earnings and return on net assets employed in fiscal year 2000.

Long-Term Incentives

Long-term incentives are provided pursuant to the Corporation's 1988 Non-Qualified Stock Option Plan for Officers, Key Employees and Directors, the 1988 Incentive Stock Option Plan, the 1998 Incentive Compensation Plan and the 1998 Stock Option Plan for Non-Employee Directors.

In keeping with the Corporation's commitment to provide a total compensation package which includes at-risk components of pay, the Committee makes annual decisions regarding appropriate stock option grants for each executive. When awarding stock options, the Committee considers executives' levels of responsibility, prior experience, historical award data, various performance criteria, and compensation practices at comparator companies. Consistent with the above stated goals, Mr. Batten received options to purchase 6,000 shares in fiscal year 2000.

Stock options are granted at an option price not less than the fair market value of the Corporation's common stock on the date of grant. Accordingly, stock options have value only if the stock price appreciates from the date the options are granted. This design focuses executives on the creation of shareholder value over the long term and encourages equity ownership in the Corporation.

Section 162(m) of the Internal Revenue Code, enacted in 1993, generally disallows a tax deduction to public companies for compensation over \$1 million paid to the Company's CEO and four other most highly compensated executive officers. Qualifying performance-based compensation will not be subject to the deduction limit if certain requirements are met. The compensation of the Corporation's CEO and the four other most highly compensated executive officers currently does not approach the disqualifying threshold. In the future, in the event the disqualifying threshold becomes an issue, the Committee will weigh all the facts and circumstances in existence at the time.
